Professional Summary

Project / Delivery Manager with 6+ years leading delivery for international brands and startups across social networking, automotive, e-commerce, and digital content/localization. Most recently led a 16-person engineering and QA team at an early-stage startup, managing delivery through flow metrics (cycle time, throughput, defect rate), budget oversight, and an active risk register, while aligning roadmaps with client and internal stakeholders. Background includes full-cycle multimedia and localization delivery across Europe, India, and Latin America, managing teams of up to 10 people across as many as 9 concurrent projects and 500+ client quotes. Skilled in Agile/Scrum delivery and applying AI tools to streamline production pipelines; PMP certification in progress.

Experience

Project Manager: September 2025 – September 2026

4GOO — Germany / Ukraine (Remote), Social Networking, Startup

Day-to-Day Operations & Performance Management

- Ensured consistent, high-quality delivery of project KPIs: % of tasks/releases delivered by planned date; difference between planned and actual spend; % of committed requirements delivered; number of defects relative to delivered functionality; lead time; cycle time; throughput; blocked time.
- Led a project team of 10 engineers (Front-End, Back-End, Mobile) and 6 QA specialists.
- Managed workforce planning, including recruitment, scheduling, and allocation.
- Project Oversight: Prepared reports for internal and client use.

Client Relationship & Partnership

- Acted as primary owner of the client relationship, facilitating strategic meetings and Weekly/Monthly Business Reviews.
- Built trust-based, partner-level relationships with key decision-makers.
- Proactively managed client expectations and risks to maintain client satisfaction and transparency; kept the project risk register up to date.

Strategic Management & Cross-Functional Leadership

- Defined and executed long-term project strategy aligned with client goals and company vision.
- Identified and implemented opportunities for scaling, process optimization, and innovation; translated strategy into actionable, measurable roadmaps.
- Collaborated cross-functionally with Dev, Operations, and QA teams to ensure alignment between client and internal stakeholders, including alignment on the roadmap.

Project Manager: 2022 – September 2025

Ciklum |.Monks — Ukraine, automotive, ECOM

- Managed full-cycle production and delivery of multimedia assets (TV, HTML5 banners, social, print) for a worldwide brand across global markets.
- Led project intake, planning/scheduling, and resource allocation across three regions (Europe, India, Buenos Aires).
- Maintained direct communication with internal and external clients on asset delivery, timelines, and technical requirements.
- Created QA briefs, performed final QC checks, and managed asset testing/distribution via third-party platforms (Weborama, Adform, Peach).
- Tracked internal and external project budgets, including out-of-pocket (OOP) costs.
- Delivered 500+ quotes for projects of varying scale over three years.
- Managed cross-functional teams of 2–10 people across 3–9 concurrent projects.

Junior Project Manager / Delivery Team Lead: 2021 – 2022

Ciklum / .Monks — Ukraine, Digital Content & Localization

- Developed onboarding documentation to support new team members' ramp-up and performance.
- Onboarded and managed a 5-member team delivering localization projects for EU and USA markets.
- Assisted project managers with tracking projects, delegating tasks, and providing client updates.
- Participated in senior management meetings to streamline processes across media projects on the account.

Content Producer: 2020 – 2021

Ciklum / .Monks — Ukraine, Digital Content & Localization

- Contributed to EU-targeted creative adaptation and localized content for international brands.
- Managed CMS content for a major fashion brand.
- Participated in agile/scrum ceremonies.

Key Skills & Tools

- Project & Resource Management: SDLC, estimation, task tracking, scheduling, team coordination, Scrum, Kanban (Scrumban), stakeholder management, financial oversight.
- Technical Proficiency: IT infrastructure and digital asset delivery processes; familiarity with Java, JavaScript, HTML/CSS, React, React Native
- Creative & Media Production: cross-platform asset delivery (TV, print, HTML5, social), QA/QC.
- Localization & Legal Oversight: content adaptation, usage rights negotiation, stock asset licensing, asset metadata management.
- Digital Tools: ChatGPT, Gemini, Claude, Weborama, Peach, Adform, Google Workspace, Microsoft Office, Figma, Axure, Jira/Confluence, Miro, Trello, Notion, BrowserStack, Swagger.
- Languages & Communication: effective communicator, self-organized, detail-oriented, process facilitator.

Certifications

- Project Management Certification — Hillel IT School, 2021–2022
- AI for Project Management — Robotdreams (Laba), August 2026
- PMP Certification — In progress, aiming to achieve it by September 2027

Education

- Master's Degree in Management — Dnipro Polytechnic, Ukraine, 2019–2021
- Bachelor's Degree in Computer Science — Dnipro Polytechnic, Ukraine, 2016–2019
- Exchange Program, International Studies — Hochschule Reutlingen, Germany, 2019–2020

Languages

- English — Upper-Intermediate (B2)
- Ukrainian — Native
- Russian — Bilingual
- German — Beginner (A1.1)
